The members of the board

The greatest challenges in ECTS Inner circle or MA in the period of 2004 -2007

1. Legal Status of the ECTS – Medicine Association
2. Shrinking support from the Universities (funding)
3. Size of the Association (rules and management of aspirant members)
4. Independence vs umbrella organizations

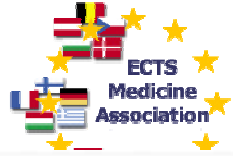

The most important event and/or accomplishments of this presidency

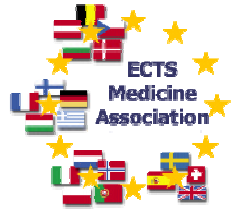

1. Registration of the ECTS-MA as a legal non profit organization under Belgian law (1995)
2. Participation in MEDINE
3. Members incorporated and increasing interest in joining our association

The most memorable experience of this presidency

2005

Getting the ECTS-MA registered as a Legal Association, a long awaited moment, made possible after the very hard work of our board and many members and prior boards of the former EC TS- ICMG
